## SUMMARY

With a Bachelor's degree in Geography and currently a student at FLUP, I have developed a broad set of skills in planning and data analysis through academic training and practical learning based on the projects I developed throughout my studies. This path has provided me with a solid foundation in territorial planning and quantitative and qualitative methodologies, preparing me to confidently face real-world challenges.

This document presents a detailed analysis of my academic and professional trajectory, particularly within the scope of the Master's in GIS and Spatial Planning. It highlights key experiences and knowledge that demonstrate my ability to deal with territorial issues, making it easier for institutions and companies to identify the most relevant skills I can offer.

## Academic Background

---

### Bachelor's Degree in Geography

[Faculdade de Letras - Universidade do Porto](#)

[FLUP - Bachelor in Geography](#)

10/2020 – 07-2023

### Master's Degree in Geographic Information Systems and Spatial Planning

[Faculdade de Letras - Universidade do Porto](#)

[FLUP - Masters in Geographical Information Systems and Spatial Planning](#)

10/2023 – Presente

## Technical Knowledge

---

## Professional Experience

---

### **Internship at the Municipality of Gondomar**

01/11/2024-20/12/2024

This internship took place during the second year of my Master's degree, lasting two months. The project focused on evaluating the feasibility of pedestrianization in the centre of Gondomar. During the internship, I had the opportunity to:

- Manage and analyze spatial and statistical data.
- Apply GIS tools for territorial analysis.
- Work with GPS data, from collection to processing.
- Develop cartographic products and spatial data mapping

## Conferences and Seminars

---

### **XVI International Conference on Major Issues of the European Space**

27/05/2022 – 29/05/2022

[Faculdade de Letras - Universidade do Porto](#)

Participation with the poster presentation titled: "THE PROBLEMATIC ISSUES OF EDUCATION AT SALESIAN COLLEGE OF PORTO."

### **Conference Series on Dynamics in Rural Areas**

17/10/2022

[Faculdade de Letras - Universidade do Porto](#)

Participation in the conference: "Resilience and Ecosystem Services: Soil, Water, Vegetation", presented by Professor Maria José Roxo from the Universidade Nova de Lisboa.

### **II Conference on Dynamics in Rural Areas: Agriculture and Forestry**

07/11/2022

[Faculdade de Letras - Universidade do Porto](#)

Participation in the conference delivered by the Professor Doutor Artur Cristóvão from the University of Trás-os-Montes and Alto Douro and Engineer Rosário Alvesda from FORESTIS
